2-way Latch

Fencing Solutions / Gates & Fittings

- 2-way Latch
- Suits common 25NB gates
- Screw-in or weld-on

GRAVITY-FED GATE LATCH

Whites 2-Way Gate Latch is a clever way to secure round-pipe gates. As the gate closes it lifts the latch and rests between the latches. The latch can secure the gate from both sides.

To install, the latch can be screwed or welded onto posts and is suitable for common 25NB pipe gates.
