
Horizons Oxy-Shield Garden Screen
/ Aust only

• Architectural feature
• Laser-cut design
• Unique rust-look
• Available at selected Bunnings only - Please check with your local store.

DECORATIVE SCREEN WITH NATURAL EARTHY TONES

Add modern style to your outdoors with a decorative garden feature

Whites Horizons Oxy-Shield Garden Screen lets you personalise your backyard with a wall mount or freestanding feature screen eatureing geometric horizontal shapes.

Oxy-Shield is a specially formulated landscaping steel designed to impart a decorative rust-look without the inherent degradation of regular steel. The surface oxidises to form a protective coating resistant to corrosion and flaking - a durable long-lasting steel.

With a rich, earthy patina - a favourite amongst landscapers, it blends effortlessly into any traditional or modern backyard or courtyard setting. Rustic tones (red, brown & orange) will further develop and enhance over time: to accelerate the effect, spray regularly with a fine mist of water.

Each panel features a laser cut, architecturally-inspired design and measures 1800mm x 900mm. There are six designs to choose from, which can be viewed here along with other Oxy-Shield products.

Code	Product Description	Size
18495	Horizons Oxy-Shield Garden Screen	1.8m x 0.90m

Handy hints:

- Position carefully.
- Screen should not come into contact with aluminium or zinc products. Rust run-off can stain surrounding areas.
- Beware of sharp edges and always wear gloves to avoid cuts and abrasions.
