## Chicken Netting
Fencing Solutions / Pens & Enclosures

• Versatile netting for chicken enclosures & garden use
• Standard 50mm (2") hex aperture
• Wire diameter is 1.00mm for light duty applications
• Easy to shape & mould

50MM (2") HEX APERTURE

Whites Chicken Netting is a strong and flexible netting with a wire diameter of 1.00mm and a standard hexagon aperture of 50mm. It is an all-purpose netting ideal for poultry yards, chicken coops, plant protection and garden trellising.

It is made from galvanised steel wire for strength and additional protection from the weather.

It comes standard in 50m packs and is also available in convenient 5m and 10m packs for smaller jobs.

Code	Product Description	Height
60005	Chicken Netting - 5m HandyPak	90cm
60006	Chicken Netting - 10m HandyPak	90cm
60008	Chicken Netting - 10m HandyPak	120cm
10645	Chicken Netting - 50m	90cm
10644	Chicken Netting - 50m	120cm
10646	Chicken Netting - 50m	180cm

Note: It is recommended that new galvanised wire mesh used in aviaries and pet cages be treated to remove excess zinc that could possibly harm the pets. Shave off any zinc spikes with a utility knife. The mesh should then be scrubbed with a mild solution of vinegar (2 cups in a bucket of water), and rinsed with clean water.

Handy Hint:

- Be sure to take into account the wire diameter, aperture and roll size when selecting mesh for a project.
