

Formwork Stake

Building / Concreting

- Used to keep concrete formwork in place
- Heavy duty steel firmly secures formwork when pouring
- Nail holes pre-drilled for convenience
- Wide flat face is ideal for securing timber
- Easy to hammer into place, remove & re-usable

EASY TO HAMMER INTO PLACE AND RE-USABLE

Whites Formwork Stakes are flat bar stakes used to secure formwork prior to pouring concrete.

They make the job even easier, with pre-drilled holes for nailing or screwing into place and tapered point for easy driving into the ground. Made from heavy duty steel, they can be re-used over and over again.

Code	Product Description	Size
71430	Flat Formwork Stake - 4 holes	300mm
71445	Flat Formwork Stake - 7 holes	450mm

Handy Hints:

- For tips on concreting, see our information sheets above or [click here](#) to go to our videos page and scroll down to "[Laying a Concrete Slab](#)".
