CREATE A MODERN LANDSCAPING FEATURE

Whites Gabion Rock Box - Square offers a bold and stylish feature for any patio and garden when combined with decorative plants and pebbles or stones.

Made from galvanised wire for long life, it is a strong and fully welded steel box ready to fill, no assembly required. We recommend filling with pebbles or stones that are a minimum 30mm in size, such as, the Whites [Bright White](#) pebbles for a modern urban look or Whites [Zen Grey Stones](#) for a classic, earthy feel.

The Rock Box measures 420mm x 420mm wide and is 385mm high, ideal for medium size feature plants to be potted in the centre.

Also available in [Round](#) version.

Code	Product Description	Height
18169	Gabion Rock Box - Square	385mm

Handy Hints:

- Place the rock box into final position and check stability before filling with pebbles or stones.
- Add a potted plant into cavity or fill directly with soil.
- To fill with 35-50mm pebbles or stones, we suggest using 4 x 15kg bag.
